

Rotary Club of Furnitureland
Post Office Box 785
High Point, North Carolina 27261

August 22, 1995

Dear fellow Furnitureland Rotarians:

In 1971 the Rotary Club of Furnitureland was a dream. Even on the evening we received our charter from Rotary International the Rotary Club of Furnitureland was just a dream! We called ourselves a Rotary club, but we all knew full well that a Rotary charter does not make a Rotary club. Rotary is a goal on which we focus . . . Rotary is an attitude towards service . . . Rotary is a perspective of the world and its communities. A club gradually becomes a Rotary club as each of its members adopt a Rotary focus, a Rotary attitude and a Rotary perspective. It took us many years to understand and develop the Rotary spirit. Some charter members never became Rotarians, Rotary is not for everyone! But we are gratified that so many charter members of Furnitureland remain excited by the Rotary challenge. And, we are proud of the many members who have joined with us during the past 25 years of our Rotary adventure.

Have we become a Rotary club? You tell us! Together we are working at being a Rotary club. We are proud of what we started, we are excited with what we have accomplished, we are enthusiastic about where we are going. We believe that we are a Rotary club! And we believe that it would not have happened without you!

In the words of our late friend, Bobbi Martin, upon being named by our club a Paul Harris Fellow, "These are the times that you realize that everything you have done has been worth it!"

Happy 25th Anniversary, Furnitureland Rotarians! Share in our pride!
